ABOUT ME

Passionate frontend developer specializing in React and Next.js, with hands-on experience building responsive, modern web applications. Skilled in transforming design mockups into performant user interfaces, leveraging tools like TypeScript and Tailwind CSS. Completed a technical internship and multiple personal projects, with a strong commitment to clean code and continuous learning. Eager to contribute to collaborative teams while expanding expertise in scalable frontend solutions.

TECHNICAL SKILLS

Frontend: React, Next.js, HTML5, CSS3, Javascript (ES6+), Typescript, Redix Toolkit
Styling: Tailwind CSS, CSS Modules, Bootstrap
Concepts: SSR/SSG, REST APIs, Responsive Design
Learning: Backend Development, Git

PROJECTS

World Wise | Repo link
A travel application enabling users to log cities they've visited, view visited countries and visualize their locations on a map.
Tech stack: React-js, React-router, Json Server, Context API
Key Features:
- Developed a fake login system to simulate user authentication.
- Implemented features to add, view, and delete city entries.
- Integrated geolocation APIs to display users' current positions on a map.

React Pizza | Repo link
Developed a dynamic and user-friendly pizza ordering platform
Tech stack: React-js, React-router, Json Server, Redux Toolkit, Tailwind CSS
Key Features:
- Implemented customer name input for personalized experiences.
- Displayed real-time stock status to inform customers of unavailable items.
- Designed a cart system allowing item quantity adjustments and order placements.
- Added a 'High Priority' option for expedited order processing.

React Quiz | Repo link
Built an interactive quiz application where users can answer questions, view results, and track performance.
Tech Stack: React.js, Context API, CSS, JSON Server.
Key Features:
- Dynamically generated quizzes with multiple-choice questions from a JSON Server.
- Managed global state (questions, answers, and scores) efficiently using Context API.
- Score tracking and result summary to provide instant feedback.
- Responsive design for seamless use across devices.

WORK EXPERINCE

Frontend Developer (Remote internship) 06/2024 - 9/2024
- Designed and implemented a responsive landing page using Next.js, TypeScript, and Tailwind CSS to enhance brand visibility and user engagement.
- Contributed to their React-based job simulation platform by adding interactive features and optimizing performance.
- Ensured cross-device compatibility and accessibility across all platforms.

EDUCATION

A-Level
Beacon House School
2019 - 2021

O-Level
Beacon House School
2017-2019

CERTIFICATIONS & COURSE

- MERN Stack Development Course – SoftTech Era
- Web Development Course – TechnoLang
- Effective Communication Skills – TechnoLang
- Next.js 15 & React - Udemy
- The Web Developer Bootcamp 2025 – Udemy
